DETAILED ACTION

1. This Office action is responsive to the Amendment filed January 25, 2007. The Examiner acknowledges the cancellation of claims 1-8 and the addition of new claims 9-19, 22 (two occurrences), 23 and 25-28.

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 9-19, 22 (two occurrences), 23 and 25-28 been renumbered 20-26, respectively. Claims 9-26 are currently pending.

Allowable Subject Matter

2. Claims 9-26 are allowed.

3. The following is an examiner's statement of reasons for allowance: regarding claims 1 and 18, the prior art of record does not teach or suggest an electronic multi-channel biomagnetometer having a plurality of coils divided into five groups which can be arranged on a flexible material adapted to overlay specific areas of a person's brain. Furthermore, it does not teach or fairly suggest such a biomagnetometer with coils connected in parallel through resistors. Moreover regarding claim 18, the prior art does

not teach an electronic multi-channel biomagnetometer having a plurality of coils for producing alternating magnetic fields with electrical current in the picoTesla range, such a range acting to produce magnetic fields which promote inhibitory hormone production.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
